

"Rocket Science" # 10

COMMUNITY DISCUSSIONS ON THINGS THAT MATTER

CENTRAL VICTORIAN SOLAR CITIES

COME ALONG & HEAR:

Michael McCartney

Project Director of the Central Victorian
Solar Cities Program

The Solar Cities' visionary energy initiative brings together industry, business, government and communities to rethink the way we produce, use and save energy.

In seven key locations across Australia, the Solar Cities' vision is to create new partnerships and trial ways to save energy, increase up-take of Australia's leading-edge technologies, reward energy efficiency and solar power generation, and showcase the economic and environmental benefits of wiser energy choices.
